

WHY IS THIS MAN SMILING?

Our son Nick was born of a beautiful Hawaiian mother and a proud Italian-American father. In our opinion, he represents the best of two worlds. We have found in John Cabot University a perfect fit for Nick's special duality. He has developed into a true citizen of the world while seeking a four-year degree.

The academic excellence and the average student-faculty ratio of 15 students per class provides for a high quality educational experience. The staff is very committed to making Nick's stay in Rome both seamless and stress free. More smiles from me!

Majestic Rome is a cosmopolitan world capital that adds to the developmental experiences of students that goes beyond reading, writing and math. For example, Nick has made friends from 66 countries from around the world. We are so happy he is a student at John Cabot University.
