

Advanced Placement® Summer Institute for AP® Art History Teachers
John Cabot University, Rome, Italy

Program Dates: June 26-30, 2017

Course Description

This AP Summer Institute is a unique opportunity for AP® Art History teachers to collaborate while exploring *THE ETERNAL CITY*, home to outstanding art and architectural examples dating from the Ancient World to the present – including seventeen of the 250 images in the new AP® Art History Curriculum Framework. Participants will focus on these artworks while developing instructional strategies, assessments, and research tools that support students enrolled in the newly redesigned AP® Art History Course.

Our busy week will be divided between classroom sessions and experiencing Rome’s art and architecture first hand. Activities include private guided tours, illustrated classroom discussions, digital handouts and computer lab access, guest lectures by JCU Art History faculty, and collaborative peer presentations.

Participant Outcomes

- Be familiar with the redesigned AP Art History course, including *Big Ideas*, *Guiding Questions*, *Enduring Understanding Statements*, *Essential Knowledge Statements*, and the *Image Set*
- Know the skills and content knowledge students will be expected to demonstrate on the AP Exam
- Develop instructional strategies, assessments, and research tools for diverse students and classroom settings
- Access online and text based resources
- Develop and present a sample lesson based on at least one work from the new Image set
- Network with supportive AP Art History colleagues
