

The JCU Institute for Entrepreneurship presents:

Dario Andreucci

Art Historian and Tour Guide

Mind The Guide represents a transparent connection that fosters a mutually beneficial relationship between traveler and tour guide. Based in Rome, Mind The Guide works with local, historically well-versed and independently licensed tour guides, who provide tours to the Eternal City's greatest sites. Their goal is to offer both travelers and tour guides one of the most fundamentally important aspects of travel that is often missing in the tour experience: Choice.

A native of Rome, Dario was raised with a deep appreciation of his unusually rich cultural surroundings. He sees great beauty and brilliance in Rome's ancient architecture—structures that have withstood the passage of time. His love of Rome has caused him to delve deeply into the study of ancient Roman life and culture. Since completing his degree in Art History and becoming a licensed guide, Dario has enjoyed leading small group tours through the Colosseum Underground and the Baths of Caracalla. Dario's expertise on Michelangelo makes his tours of the Vatican come alive.

Monday, November 2nd, 2015
