SERVICES

COMPANY TESTIMONIAL

Gianfrancesco Rizzuti

Head of Communication and Institutional Relations at FeBAF

"In the last few years, we had the pleasure to collaborate with John Cabot University's Center for Career Services, taking several students as interns. From a first evaluation, I can give a very positive feedback. Students were able to combine their studies with the concrete dynamics of work. This is not easy nor to be taken for granted, because they have to handle their classes and their internship simultaneously. Their enthusiasm and knowledge of English were an added value for us to develop our initiatives and the organization of our events, especially the international ones. I hope our collaboration with JCU will continue in the future and thrive."
