Claudia Sosai

Assistant Coordinator

*Head of the Italian Network of the Anna Lindh Foundation ALF
(Italian Network for the Euro-Mediterranean Dialogue RIDE-APS)*

“Prospettive Mediterranee is one of the founding bodies of RIDE-APS, charged with carrying out the management and coordination service of the Secretariat of RIDE-APS. The RIDE-APS brings together public and private organizations and bodies in order to foster dialogue and cooperation in the Euro-Mediterranean area. We found in John Cabot University a great partner that has provided us with curious, dynamic and enthusiast interns, able to move in the complex field of international cooperation and always ready to challenge themselves in order to do their best for the association. We offered our interns the possibility to put their studies into practice, as well as to test their interpersonal and problem-solving skills. Everyone has always been interested in facing the assigned projects with excellent motivation. The students provided to us by JCU bring in fresh ideas and diverse points of view. We pride ourselves in learning from them while they also learn from us.”
