

TESTIMONIAL

Summer 2018

JCU Center for Career Services

My name is **Chiara Franzelletti**. I am majoring in **International Affairs** and I will be graduating in 2020.

Through the **JCU Center for Career Services**, I applied for an internship at **Comunità Ambiente** and I am currently working there as a trainee. Comunità Ambiente operates in the environmental sector and focuses on the preservation of biodiversity. My internship consists of writing reports for non-specialist audiences. I am currently working on a report on the **SUN LIFE** project in Umbria, which promotes biodiversity's preservation through the creation of an ecological network, established by the European Union's Habitats Directive.

Thanks to this internship, I am learning how to behave in a work environment as well as how to be professional and responsible. This experience enriches my curriculum and prepares me for my future career. Additionally, this internship allows me to learn about European Legislation on protection of biodiversity.

I would recommend this internship to JCU students, especially those majoring in International Affairs, because it's an opportunity to learn about the European Union's environmental policies and to work in a friendly environment.
