

TESTIMONIAL

Fall 2018

JCU Center for Career Services

My name is **Giovanna Pino** and I just graduated from John Cabot University with a degree in **Marketing** and a minor in **Psychology**. During my last semester at JCU, I felt the need to gain some work experience that could better prepare me to jump into the job market after graduation. For this reason, I decided to apply for a **for-credit internship** at the **JCU Center for Career Services**.

The Career Services Center is of key importance for the university, since its role is to help students prepare for their future. The office organizes seminars and events as well as individual meetings with students. The activities I was responsible for ranged from **writing blogs posts and updating the office database** to helping in the **organization and promotion of events**.

Thanks to the variety of tasks I was assigned, I was able to hone different skills such as time management, writing and communication. The Center for Career Services staff helped me understand what being part of a functional team means and that mutual support is what makes the difference in your job. I would strongly recommend this internship to other JCU students because they will have the opportunity to work in a very hands-on environment alongside supportive colleagues, while also learning how to jumpstart a successful career.
