

## TESTIMONIAL - *JCU Center for Career Services, Summer 2017*

My name is Omar Azabi and I am a graduating senior majoring in International Affairs at John Cabot University. Before the end of Spring 2017, I started to plan my summer break in order to find the best internship to enrich my skills and qualifications. Among the numerous internships offered by the *JCU Career Services Center*, I decided to apply for **ItaliaCamp**. The company, one of the first examples of **Social Innovation** in Italy, creates networks to match supply and demand.

I was assigned to the communication department of **ItaliaCamp's Company division**. From day one, the entire team welcomed me and taught me everything step by step so that I could perform well during my internship. During my work, in addition to curating the company's daily **communication strategy** and **drafting reports**, I supported the team for the organization of two important governmental events. The first was *Connettere L'Italia* (Connecting Italy) one of the most important events in 2017 for the Ministry of Transport and Infrastructure, attended by all the major market stakeholders and institutions. The second one was the *G7 Transport* in Cagliari (Sardinia), where we organized an innovation gallery to show all the best projects in Italy in the field of transport.

Thanks to its amazing work environment and young team, **ItaliaCamp** is the perfect place to learn, challenge yourself, and develop concrete projects. I really enjoyed my time there and I totally recommend it.
