

TESTIMONIAL

Spring 2021

JCU Center for Career Services

My name is Caroline Liquit and I graduated from John Cabot University in 2020 with a B.A. in **International Business**.

After graduation, I applied for an internship through the JCU Center for Career Services and I obtained the position of **Risk Advisory Analyst at Deloitte**, one of the 'Big Four' accounting firms worldwide.

I work in a small team of people who provide consulting services to various companies. Together with my team, I work on the new requirements for the financial reporting of listed companies. I enjoy working at Deloitte, as it is a great stepping stone for a career in consulting. It is challenging, yet incredibly rewarding, since I get the chance to work with different companies worldwide. I find that I now have a better understanding of how culture influences business, as well as a clearer idea of what career path I want to pursue.

I would like to continue working as an analyst at Deloitte in the future. I highly recommend JCU students to take advantage of the Center for Career Services, which assists students and alumni in the job application process through selected internships tailored to the students' skills.
