JCU Center for Career Services

"My name is Giada Gavazzi, I am a junior at John Cabot University majoring in **Communications** and minoring in **Political Science**. I am currently working as an intern at **Traslochino**, a Rome start-up that connects users with professional movers. I am curating the company's **digital presence**, and I'm in charge of their **social media** and of **blog articles**.

I am really enjoying the internship, since it allows me to apply what I learn in class, and it gives me the chance to understand if this is the path that I want to take in the future. I am learning how the professional world works, what social media users like to see, and how to write on a company's blog.

I am happy to work with cooperative and expert colleagues, and I will always remember this internship as a valuable experience. I highly recommend this internship to anyone who is eager to see how companies operate through social media, and to all Communications students in general."
