

# TESTIMONIAL

*Spring 2018*

JCU Center for Career Services

My name is **Karl Kevin Kakeu** and I graduated in **Economics and Finance** at **John Cabot University**, in May 2017. A couple of months after graduation I was contacted by **Teleperformance**, one of the largest contact center companies in the world. I had met the CFO of Teleperformance at the November **Career Fair**, organized by **JCU Center for Career Services**. I am currently interning there as **Financial Controller**.

Studying at John Cabot University has been a great experience, as I have had the chance to attend extremely helpful classes for my professional future. Courses such as Managerial Accounting and Finance have taught me skills that I currently utilize at Teleperformance. Another course that has been very helpful is the Senior Seminar in Economics and Finance. At Teleperformance, I am often called upon to perform an analysis, and I have to present it to my supervisor. My experience as a student at JCU prepared me well for this, as our professors challenged us on a weekly basis with reports and presentations.

My tasks at Teleperformance include **completing daily reports, uploading them on the Corporate website, and creating and submitting weekly reports to Head Management**. Weekly reports contain financial information about clients and how they are doing with respect to the previous week.

My recommendation for other JCU students is to contact the Center for Career Services in order to start their career paths. In addition to the Career Fair, the office organizes seminars and events and offers students numerous job and internship opportunities.
